

HUMBLE HEARTS School for the Deaf

Located in Nairobi, Kenya, this school seeks to educate students who are orphans or from poor families that cannot afford the costs of special education.

Deafness is not well understood in Kenya, even believed by some to be a curse causing parents to separate due to arguments over which parent is to blame. Most deaf children don't receive an education because families haven't the means to pay tuition costs. For \$20 a month you can help. This pays for a deaf child's special education, a uniform (for many the only new outfit they have ever owned), school supplies and the cost of tuition at Humble Hearts. With sponsorship these children will receive an education and the opportunity to break the cycle of poverty. Humble Hearts also accepts hearing students, especially siblings of deaf children, which by teaching them sign language greatly helps the deaf children in their home environment.

Artwork was created from an original block print made by students at Humble Hearts.

All proceeds from the purchase of this card help the students at Humble Hearts School for the Deaf. Thank you for your support.
